

BIOTECHNOLOGY

TOP PRODUCTS FOR YOUR LABORATORY

COMPLETE LABORATORY SOLUTIONS FOR THE HIGHEST REQUIREMENTS IN BIOTECHNOLOGY

Whether in industrial production (white biotechnology) or medical technology applications (red biotechnology), biotechnology drives scientific innovation for health, sustainability, and modern manufacturing processes. Techniques such as fermentation, cell culture, genetic engineering, PCR and sequencing, as well as upstream and downstream processing, place the highest demands on precision, reproducibility, and efficiency. As a result, reliable laboratory equipment, precise measuring and analytical instruments, and the continuous availability of high-quality consumables and chemicals are essential.

At Th. Geyer, we are your trusted partner for biotechnology, offering a complete portfolio from a single source. Through our extensive network, you gain access to leading manufacturers and brands, supported by flexible ordering solutions and dedicated personal contacts. Combined with expert consultation and value-added services, our deep understanding of laboratory environments enables us to deliver tailored solutions that help transform your biotechnology innovations into reality.

ANALYTICS

- Biochemicals
- Solvents
- pH papers
- pH buffer solutions
- Reagents
- Reference materials, CRM
- Salts and salt solutions
- Volumetric solutions and calibration solutions

CONSUMABLES

- Bags and foils
- Filters and membranes
- Laboratory bottles and glassware
- PCR plates and strips
- Pipette tips and pipettes
- Syringe filters

MOLECULAR BIOLOGY

- Antibodies
- Biochemical buffers
- Blotting papers and substrates
- Enzymes and coenzymes
- Gel electrophoresis products
- Kits and accessories

MICROBIOLOGY

- Suction manifolds
- Dry culture media
- Ready-to-use culture media
- Media components
- Detection reagents
- Petri dishes and culture tubes
- Sampling materials
- Rapid test kits

LABORATORY EQUIPMENT AND PLANNING

- Consulting and planning
- Commissioning and service
- Complete laboratory facilities
- Laboratory fume hoods
- Laboratory furniture and chairs
- Delivery and installation
- Worktops and benchtops

A ONE-STOP SHOP FOR ALL YOUR NEEDS

Our product range offers top-quality products for the biotechnology including the following manufacturers and brands:

- | | | |
|--|--------------------------|---------------------------------------|
| • AnalytiChem®
(former Bernd Kraft) | • Gilson | • Promega |
| • AppliChem | • Greiner Bio-One | • Reagecon |
| • B. Braun | • Kern | • Sarstedt |
| • BIOSOLUTE® | • Köttermann | • Sartorius |
| • Biowest | • LABSOLUTE® | • Serana |
| • BRAND | • LGC Standards | • Serva |
| • Carl Roth | • Macherey-Nagel | • Solstice
(former Honeywell) |
| • CARLO ERBA Reagents | • Merck | • Uvex |
| • CHEMSOLUTE® | • Millipore | • Waldner |
| • Cytiva | • Nalgene | • Waters
(former Becton Dickinson) |
| • Duran®/DWK | • neodisher®/Dr. Weigert | • Whatman |
| • Eppendorf | • Oxoid | |
| | • Pall | |
