

**SERVICE FOR
YOUR NEEDS**

CUSTOMISED SOLUTIONS NO MORE IN-HOUSE PREPARATION

With our trio of brands BIOSOLUTE®, CHEMSOLUTE® and LABSOLUTE®, we offer customised solutions in the fields of life science, laboratory chemicals and consumables.

 **TH.GEYER**

CUSTOMISED LABORATORY SUPPLIES FOR YOUR SPECIFIC NEEDS

Our Th. Geyer brands BIOSOLUTE®, CHEMSOLUTE® and LABSOLUTE® offer you top-quality biological ready-made buffers, a microbiological portfolio, laboratory chemicals, reagents and consumables for your demanding tasks.

But even this comprehensive product selection is sometimes not enough when it comes to special requirements.

That is why we have expanded our services to include attractive options for you:

- Production according to your specifications
- Customised packaging solutions
- Labelling and printing

INDIVIDUAL SPECIFICATIONS

Our ISO 9001:2015-certified processes guarantee quality in every respect.

In accordance with your specifications, the relevant parameters will be incorporated into both the product specification and the certificate of analysis.

It goes without saying that our quality promise also applies to safe and fast transport by our logistics experts.

BIOSOLUTE®

BIOSOLUTE® is specially tailored to your requirements in the **life science** laboratory.

As customised solutions, BIOSOLUTE® offers:

- Specific salt mixtures and solutions – tailored to applications in cell culture, molecular biology and microbiology
- Specifications and quality parameters according to your requirements, e.g. free of DNases, RNases, proteases and endotoxins, sterile filtered or gamma irradiated
- Standard range in variable concentrations and flexibly combinable with different container sizes, e.g. in tubes, bottles or other containers
- Ready-to-use solutions tailored to your needs

CHEMSOLUTE®

CHEMSOLUTE® offers high-quality **chemicals** for your laboratory.

Customised chemicals:

- Mixtures of solvents and/or acids, e.g. acetone/hydrochloric acid 4 % 95:5 or mixture of 2-propanol/1-methoxy-2-propanol 80:20 (v/v)
- Special volumetric solutions, e.g. silver nitrate solution 0.1 mol/l in 2-propanol
- Filling in containers according to customer preferences, e.g. in canisters with DIN61 thread or in barrels with dispensing system

LABSOLUTE[®]

With **consumables** from LABSOLUTE[®], you are on the safe side.

Tailor-made solutions for your applications:

- Glass fibre or paper filters with customised parameters such as diameter, thickness and pore size
- Glass tubes with dimensions perfectly tailored to your needs, such as length, diameter or even base shape, e.g. as a cost-effective replacement for expensive device consumables
- Colour matching of caps or bottles for quick coding of samples

CUSTOMISED SOLUTIONS

Every application is unique – which is why we offer solutions that are perfectly tailored to your needs.

With our customised solutions, we develop products that are designed to meet your exact requirements. Our experts will personally guide you through the process, from your initial enquiry to the final implementation.

Once your customised product has been successfully implemented, you can conveniently reorder it via our online shop.

YOUR BENEFITS

Benefit from our expertise and our competence.

- Consistent quality with less effort and fewer risks
- Less waste thanks to needs-based purchasing
- Save valuable time and costs
- With a non-disclosure agreement (NDA) upon request

For further information or specific enquiries, simply send a short message to **sales@thgeyer.de**. Together, we will clarify the details and define the optimal solution for your project.
